3:15 pm – 3:30 pm	Raffle & Closing Remarks Adrian Núñez, SFHP	609

Keynote Speaker Bio

Anthony Wright, Executive Director, *Health Access California*

Anthony Wright has served as Executive Director for Health Access, the statewide health care consumer advocacy coalition, since 2002. Health Access has been a leader in state and national efforts to fight health care budget cuts, to win consumer protections, and to advance comprehensive health reform coverage and expansions. Wright led fights to pass a first-in-the-nation law against hospital overcharging of the uninsured, and to win a prescription drug discount program despite an \$80 million industry campaign against it.

Wright’s background is as a consumer advocate and community organizer, and he has been widely quoted in local and national media on a range of issues. He worked for New Jersey Citizen Action, the Center for Media Education, The Nation magazine, and in Vice President Gore’s office in the White House. Born and raised in the Bronx, Wright graduated from Amherst College magna cum laude in both English and Sociology. He lives with his wife Jessica, his son Jefferson and their two cats, Patience and Fortitude.

Who We Are

San Francisco Health Plan

San Francisco Health Plan is a City-sponsored health plan providing health insurance to more than 55,000 San Franciscans. One in every four San Francisco children is insured by us. We also take great pride in our ability to serve young adults, seniors, and persons with disabilities. We were created by the City and County of San Francisco with one purpose: to provide high quality medical care to the largest number of low-income San Francisco residents possible, while supporting San Francisco’s public and community-minded doctors, clinics, and hospitals.

Golden Gate to Health Insurance (GGHI) Network

GGHI Network was created by the San Francisco Health Plan as a resource for people who help individuals and families living in San Francisco obtain health coverage. One of our primary goals is to be an active source of information about public health care programs for San Francisco’s application assistants and eligibility workers. These programs include Medi-Cal for Children & Pregnant Women, Healthy Families Program, Healthy Kids, and Healthy San Francisco.

Special thanks to our speakers, workshop presenters, Health Access California, Medi-Cal Health Connections, SF Department of Public Health, Healthy San Francisco, National Immigration Law Center, SFSU Extension Center, Lisa Luke, and especially our volunteers for your support.
