

# How to get services in your care network

**Community Clinic Network** is made up of independent non-profit community clinics across San Francisco. They provide quality health care in culturally, linguistically, and population sensitive, community-based settings. Comprehensive primary, preventive, and ambulatory care services are provided by a team of doctors, mid-level clinicians, nurses, dentists, and health practitioners. Many clinics offer “one stop shopping” including mental health services, dental and vision care, health promotion, and disease prevention education. Specialty services and emergency care are provided by Zuckerberg San Francisco General Hospital and Trauma Center and skilled nursing and rehabilitation is available at Laguna Honda Hospital.
