Informational Section

Introduction to the Formulary

The San Francisco Health Plan (SFHP) Formulary is a list of drug products that are approved by the Food and Drug Administration (FDA) and are eligible for coverage under the outpatient prescription benefit. Drugs on the SFHP Formulary are selected to reflect the most appropriate, high quality and cost-effective drug therapies. The SFHP Formulary includes brand and generic medications as well as some devices, in compliance with the Affordable Care Act (ACA) and California state regulations. The presence of a drug on the Formulary does not guarantee that you will be prescribed that drug by your provider.

Definitions of Terms

The following is a list of common terms used throughout this Formulary and their meanings:

“Brand name drug” is a drug that is marketed under a proprietary, trademark protected name. The brand name drug shall be listed in all CAPITAL letters.

“Coinsurance” is a percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

“Copayment” is a fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

“Deductible” is the amount an enrollee pays for covered health care benefits before the enrollee’s health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.

“Drug Tier” is a group of prescription drugs that corresponds to a specified cost sharing tier in the health plan’s prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee’s portion of the cost for the drug.

“Enrollee” is a person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this formulary template shall also include subscriber as defined in this section below.

“Exception request” is a request for coverage of a prescription drug. If an enrollee, his or her designee or prescribing health care provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee’s condition.

“Exigent circumstances” are when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee’s life, health, or ability to regain maximum function or when an enrollee is undergoing a current course of treatment using a nonformulary drug.

“Formulary” is the complete list of drugs preferred for use and eligible for coverage under a health plan product, and includes all drugs covered under the outpatient prescription drug benefit of the health plan product. Formulary is also known as a prescription drug list.

“Generic drug” is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in ***bold and italicized lowercase*** letters.

“Nonformulary drug” is a prescription drug that is not listed on the health plan’s formulary.

“Out-of-pocket costs” are copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.

“Pharmacy & Therapeutics Committee” is a group of local prescribers and pharmacists that meet four times per year and determine which drugs will be on the formulary and the criteria used for the Prior Authorization review process.

“Prescribing provider” is a health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.

“Prescription” is an oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.

“Prescription drug” is a drug that is prescribed by the enrollee’s prescribing provider and requires a prescription under applicable law.

“Prior Authorization” is a health plan’s requirement that the enrollee or the enrollee’s prescribing provider obtain the health plan’s authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug.

“Step therapy” is a process specifying the sequence in which different prescription drugs for a given medical condition and medically appropriate for a particular patient are prescribed. The health plan may require the enrollee to try one or more drugs to treat the enrollee’s medical condition before the health plan will cover a particular drug for the condition pursuant to a step therapy request. If the enrollee’s prescribing provider submits a request for step therapy exception, the health plans shall make exceptions to step therapy when the criteria is met.

“**Subscriber**” means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

How to Read This Formulary

The SFHP Formulary document is listed alphabetically by drug class and includes the following information: drug name, dosage form, drug tier, along with any formulary restriction such as quantity limit, prior authorization or step therapy requirements.

How can I find a drug on the Formulary list?

You can locate a prescription drug by looking up the therapeutic category and class of the drug or the BRAND or **generic** name of the drug in the alphabetical index. You can search this list by:

- Searching for the category or class to which the drug belongs and then searching for the name of the drug in alphabetical order OR
- Searching the index for the name of the drug in alphabetical order

Formulary List

Drug type	How the drug name will appear in the formulary drug list
generic drug	<i>metronidazole oral tablet</i>
generic drug with a marketed brand name	<i>norgestimate</i> (Tri-Sprintec)
brand drug	ELIQUIS ORAL TABLET (<i>apixaban</i>)

How do I know if the drug listed is a brand or generic drug?

A drug is listed alphabetically by its BRAND and **generic** names in the therapeutic category and class to which it belongs. If a drug is only available as brand, the generic name is included after the brand name in parentheses and all ***bold and italicized lowercase*** letters. If a drug is available as a generic, it is listed by the generic name. Some generic drugs are marketed under a proprietary, trademark protected brand name. For these, the brand name will be listed after the generic name in parentheses and regular typeface with first letter of each word capitalized.

Generally, SFHP requires generic substitution when an equivalent generic product for a brand name drug is available (see Brand medication policy below). If a generic equivalent for a brand name drug is available, and both the brand name and generic equivalents are covered, the generic drug will be listed separately from the brand name drug in all ***bold and italicized lowercase*** letters. If a generic equivalent for a brand name drug is not available or is not covered on the formulary, the drug will not be listed separately by its generic name.

What if I cannot find a drug on the Formulary list?

If your medication is not listed in the SFHP Formulary list, it is called a nonformulary drug. Your provider must submit a prior authorization form to SFHP before the pharmacy can dispense the nonformulary drug. SFHP will review the request and determine if the medication will be authorized based on prior authorization criteria approved by the SFHP P&T Committee. Some Formulary medications also require your provider submit a prior authorization form before the pharmacy can dispense the drug if your prescription exceeds specific limits, requires step therapy, or is a medication with specific uses. SFHP's prior authorization criteria are approved by the SFHP P&T Committee and are consistent with professionally recognized treatment guidelines and standards of practice.

* For more information about the prior authorization process, see the Formulary Restrictions section.

What are Drug Tiers?

Drugs are placed on different tiers based on how they work, and their safety and cost compared to other drugs used for the same type of treatment.

- Tier 1 drugs are formulary generic drugs. Quantity and age limitations may apply.
- Tier 2 drugs are formulary brand name drugs. Quantity and age limitations may apply.
- Tier 3 drugs are formulary brand or generic drugs that require a prior authorization or require step therapy.
- Drugs with no tier are nonformulary drugs, excluded drugs, or drugs covered through the medical benefit.

Drug Tier		Coverage Requirements and Limits*
Tier 1	Formulary, generic	AL = Age Limit QL = Quantity Limit
Tier 2	Formulary, brand	
Tier 3	Formulary with Prior Authorization or Step Therapy required (may be brand or generic)	PA = Prior Authorization ST = Step Therapy

*Drug tier and other restrictions are designated with symbols according to the key above. Please see the "Formulary Restrictions" section for further details on these limits.

Some medications may be listed in multiple tiers due to a particular strength being formulary and another strength or dosage form of the same medication requiring a prior authorization.

What is the difference between the outpatient prescription drug benefit and the medical benefit?

The outpatient prescription drug benefit includes FDA-approved drugs that are self-administered, commonly oral or self-injectable drugs, not otherwise excluded. Drugs

that must be administered to you by a health care professional are usually provided under the medical benefit. Medical benefit drugs may include drugs for infusion therapy, blood products, and any drug that must be administered by a health care professional. Medical benefit drugs are not covered in the outpatient prescription drug benefit, with the following exceptions: long-acting injectable drugs for necessary treatment of a mental health condition or substance use disorder, and an injectable medication used for pre-exposure prophylaxis (PrEP) for HIV-1. For the full list of drugs that must be administered to you by a health care professional that are also covered under the outpatient prescription drug benefit and information on how to obtain drugs through the medical benefit, please visit <https://www.sfhp.org/providers/pharmacy-services/sfhp-formulary/>

For more information on benefits under the Healthy Workers HMO plan please visit <https://www.sfhp.org/programs/healthy-workers/benefits/>.

Are any drugs excluded from the Formulary?

The following drug classes are excluded from the Healthy Workers HMO Formulary:

- Drugs for use in sexual dysfunction, except when prescribed as a Medically Necessary Treatment of a Mental Health Condition or Substance Use Disorder.
- Compounded drug products when there are FDA approved and marketed products available for the diagnosis. Compounded drug products must also be demonstrated to be safe, effective, and stable for consideration of an exception to this exclusion.
- Healthcare professional administered drugs, except for long-acting injectable drugs for necessary treatment of a mental health condition or substance use disorder and an injectable medication used for pre-exposure prophylaxis (PrEP) for HIV-1.
- Over-the-counter (OTC) vitamins that are not medically necessary, OTC medications, and OTC devices. Exceptions include: aspirin to prevent cardiovascular disease and colorectal cancer for adults 50–59 years with a high cardiovascular risk, diabetic supplies, contraceptive devices and drugs, supplies and devices for the treatment of phenylketonuria (PKU), Medically Necessary Treatment of a Mental Health Condition or Substance Use Disorder, drugs to help you stop smoking, and prenatal vitamin, including folic acid and fluoride preparations if medically necessary and require a prescription.
- Prescriptions for drugs or devices which have not received approval from the FDA are excluded.

Who decides what drugs are on the Formulary?

The SFHP Pharmacy and Therapeutics (P&T) Committee is responsible for selecting medications on the Formulary. The SFHP P&T Committee is composed of actively participating network physicians from various medical specialties and clinics and

community clinical pharmacists along with the SFHP Chief Medical Officer and Pharmacy Director or designee. The SFHP P&T Committee reviews all new medications and new treatment guidelines to determine how well drugs work, the safety profile of the medications, and overall value when selecting the formulary list.

SFHP providers may request evaluation of drugs for addition to or deletion from the Formulary by submitting the Formulary Modification Request Form available on our website at <https://www.sfhp.org/providers/pharmacy-services/prior-authorization-requests/>.

How and when does the Formulary change?

The P&T Committee meets quarterly in January, April, July, and October to review Formulary changes based on safety, efficacy, and quality of care considerations. Quarterly Formulary updates approved during P&T Committee meetings go into effect by the 20th of the following month and are posted on the SFHP website for review. Other interim changes or updates will also be posted monthly for review. Once updated, previous Formulary documents are no longer considered in effect.

The following changes to the formulary may occur:

- A drug may be added to or removed from the Formulary
- A new generic form may be added to the Formulary when it becomes available
- A brand drug may be removed from the Formulary when a generic equal becomes available
- A drug may move tiers when a prior authorization or step requirements are added or removed
- Age or quantity limits may be added, removed, or changed

When a drug or dosage form is removed from the formulary or restrictions are added and it was previously approved for coverage for your medical condition, coverage for the drug will continue if your provider continues to prescribe the drug for your condition and the drug is prescribed appropriately and is safe for your condition. SFHP will notify you if a covered drug you are taking is removed from the formulary because the FDA deems the drug to be unsafe and it is removed from market, or because the manufacturer removes the drug from market.

The monthly updates to the SFHP Formulary can be accessed online from our website at <https://www.sfhp.org/providers/pharmacy-services/sfhp-formulary/>. You can also request information by calling SFHP Customer Service at **1(415) 547-7800** (local), **1(800) 288-5555** (toll-free), Monday–Friday, 8:30am–5:30pm.

What preventive services are covered under the outpatient prescription drug benefit?

Preventive services are required by the Patient Protection and Affordable Care Act (ACA) and Knox-Keene Health Care Service Plan Act (Knox-Keene Act) to be covered

without prior authorization and at no charge to the enrollee. Preventive health drugs covered under the outpatient prescription drug benefit are determined based on recommendations by the United States Preventive Services Task Force and immunization coverage are based on the recommendations from the Advisory Committee on Immunization Practices of the federal Centers for Disease Control and Prevention. For more details about preventive services covered under the outpatient prescription drug benefit, visit <https://www.sfhp.org/providers/pharmacy-services/sfhp-formulary/>. For information on how to obtain prescription drugs and how to find a network pharmacy, please see “Filling a prescription” section below.

What is a contraceptive drug or device?

Contraceptives are medications or devices, such as diaphragms, that help prevent pregnancy. SFHP is required by law, to cover up to a 12-month supply, per fill, of FDA-approved contraceptives medications and devices, including over the counter (OTC) contraceptives, without prior authorization and no copayment. A prescription is not required to trigger coverage of OTC contraceptives. The enrollee ID card must be presented at a participating in-network pharmacy and the pharmacy can process the formulary OTC contraceptive without prior authorization and no copayment.

Over the counter (OTC) Contraceptives includes:

- Condoms (Female)
- Condoms (Male)
- Daily Oral Contraceptives (Opill)
- Emergency Oral Contraceptives
- Spermicides (cream, film, foam, gel, suppository)

For information on how to obtain a prescription contraceptive and how to find a network pharmacy, please see “Filling a prescription” section below.

What diabetes care drugs and products are covered?

SFHP covers FDA-approved medications for the treatment of diabetes, (including the type of diabetes developed during pregnancy in women who did not have diabetes before) and diabetic testing devices and supplies, whether or not you need to use insulin. Covered devices and supplies under the outpatient prescription drug benefit include glucose monitors, test strips, syringes, lancets, alcohol wipes and ketone urine testing strips. For information on how to obtain prescription drugs and how to find a network pharmacy, please see “Filling a prescription” below.

Filling a prescription

When you need medication, your Primary Care Physician (PCP) or referred specialist will prescribe it. You can obtain prescription drugs at any in-network retail pharmacy. To get the medication, take the paper prescription to a retail pharmacy listed in the Pharmacies section of the San Francisco Health Plan Healthy Workers HMO Provider

Directory (<https://www.sfhp.org/programs/healthy-workers/find-a-provider/>) and show your enrollee ID card to the pharmacist. Your Primary Care Physician (PCP) or referred specialist may choose to send prescription drugs to a pharmacy electronically. Prescriptions will be covered according to this SFHP Formulary document and restrictions outlined below.

Enrollees can also obtain their medications through a mail order pharmacy. It can be a convenient way to fill maintenance medications. Maintenance medications are drugs that doctors prescribe on an ongoing, regular basis to maintain health. For instructions on how to obtain medications through a mail order pharmacy, please visit the Mail Order Pharmacy Section at the following website <https://www.sfhp.org/programs/healthy-workers/benefits/pharmacy-services/>

Drugs listed on the SFHP Healthy Workers HMO formulary are not subject to any specialty pharmacy restrictions or other network limitation on coverage. SFHP Healthy Workers HMO does not have any specialty pharmacies in the network.

Copayment Information:

Copayments for covered outpatient prescription medications are as described below. Cost-sharing does not exceed 50 percent of the cost to the plan.

The following copayments apply to prescriptions covered under the Healthy Workers HMO Formulary:

- **\$5 Copayment** – generic medications listed on Tier 1 or Tier 3, and preferred brand medications listed on Tier 2 or Tier 3 that have a generic equivalent.
- **\$10 Copayment** – brand medications listed on Tier 2 or Tier 3

The total amount of copayments and coinsurance an enrollee is required to pay does not exceed two hundred fifty dollars (\$250) for up to a 30-day supply of a covered outpatient prescription drug.

What drugs have their cost waived?

Select drugs are required by state or federal legislation to be covered with no out-of-pocket cost for enrollees. For full list of preventive drugs and immunizations at \$0 copayment, please visit <https://www.sfhp.org/programs/healthy-workers/benefits/pharmacy-services/>

- **\$0 Copayment** –
 - Preventive medications, including but not limited to:
 - all contraceptives
 - medications approved for prevention of human immunodeficiency virus (HIV) infection
 - low-dose aspirin

- statin medications
 - prenatal vitamins with folic acid
 - breast cancer prevention drugs
 - medications for tobacco cessation
 - immunizations
 - Covid-19 Home Tests and Therapeutics provided at SFHP's in-network pharmacies.
- All \$0 copayment medications on formulary are listed with this symbol: 

Formulary Restrictions

The SFHP Formulary uses standard formulary restrictions designated with symbols including specific limits on drugs such as quantity limitations (QL) and age limitations (AL), step therapy (ST), and prior authorization (PA). All formulary restrictions are based on FDA approved indications, standards of practice, and safety considerations.

Prescriptions exceeding the formulary restrictions require that your prescriber submit a Prior Authorization request. Your pharmacist will get an electronic message from SFHP if a prescription has a formulary restriction requiring prior authorization and will inform you and your treating provider.

What is Step Therapy?

Step Therapy (ST) medications require you to try one or more drugs to treat your medical condition before SFHP will cover a particular drug for the condition pursuant to a step therapy request. If your prescribing provider submits a request for step therapy exception, SFHP shall make exceptions to step therapy when the prior authorization criteria is met. SFHP will not require you to meet step therapy for a drug you are already taking as long as your provider continues to prescribe the drug, and the drug is still appropriate and considered safe and effective for your condition. To request exemption, a prior authorization should be submitted using the [Step Therapy Exception criteria](#). Additional information for step therapy request approval can be found at <https://www.sfhp.org/providers/pharmacy-services/prior-authorization-requests/> under the "Prior Authorization Criteria" section.

What is the prior authorization request process?

The health plan shall cover nonformulary or restricted drugs when medically necessary. If a nonformulary drug, a drug restricted for prior authorization, a drug restricted for step therapy, or a prescription exceeding a quantity or age limitation is medically necessary; you or your provider can request SFHP to review the prescription for coverage. This process is called a prior authorization request or an exception request. Clinicians can submit a prior authorization request by:

1. **Fax:** Download a [Prior Authorization Request Form](#) and fax to **1(855) 461-2778** for both standard and urgent requests. Urgent requests should be clearly labeled “URGENT” at the top of the prior authorization request form.
2. **Phone:** Pharmacy Benefits Manager (PBM) Magellan at **1(800) 424-4331** to submit a verbal request.

The [Prior Authorization Request Form](#) can be accessed from our website at <https://www.sfhp.org/providers/pharmacy-services/prior-authorization-requests/>.

A pharmacist or Medical Director reviews all prior authorization requests and makes a decision to approve, approve with changes, deny, or ask your prescribing provider for more information based on criteria approved by the SFHP P&T Committee. Non-urgent requests are reviewed within 72 hours. When exigent circumstances exist, the request is expedited and reviewed within 24 hours. When exigent circumstances exist, the request may be labeled urgent. If the prior authorization request is approved, a message is sent by fax to the prescriber listed on the completed Prior Authorization Request Form, stating the medication will be covered by SFHP. When a non-urgent request is approved, the health plan will provide coverage for the duration of the prescription, including refills. When a request based on exigent circumstances is approved, the health plan will provide coverage for the duration of the exigency. If the health plan fails to respond to a completed prior authorization or step therapy request within 72 hours of receiving a non-urgent request or 24 hours of receiving a request based on exigent circumstances, the request is deemed granted for the duration of the prescription, including refills.

If the prior authorization request is denied or approved with changes, SFHP will send a letter to you and the prescribing provider. This letter includes the criteria reason for SFHP’s decision. We also include instructions for how you may appeal if you disagree with the decision. If you disagree with SFHP’s denial or approval with changes, you may submit an appeal to SFHP. SFHP will review your appeal within thirty (30) days. If your appeal is urgent, it will be reviewed within 72 hours. If your appeal is about a drug that is not on SFHP’s formulary, you may file a grievance seeking an external exception request review. A grievance seeking an external exception request review is reviewed by an external review organization. An external review organization is not affiliated with or employed by SFHP. The external review organization will decide whether SFHP should cover the non-formulary drug based on your medical need. SFHP will notify you and your prescribing physician of the decision within 72 hours. If the original request was expedited, SFHP will notify you and your prescribing physician within 24 hours.

****Note:** Pursuant to section 1367.22 of the Health and Safety Code, SFHP will not limit or exclude coverage for a drug if the health plan previously approved coverage of the drug for an enrollee’s medical condition and the prescribing provider continues to prescribe the drug for the medical condition, provided that the drug is appropriately prescribed and safe and effective for treating the enrollee’s medical condition.

Other Formulary Policies

Brand medication policy

SFHP has a mandatory generic policy and requires generic substitution when an equivalent AB-rated generic or interchangeable biologic product for a brand name drug is available. Dispensing of these brand name drugs is allowed only in certain cases:

- Pharmacy bills brand medication as a generic product.
- Pharmacy is dispensing one (1) of the following narrow therapeutic index drugs/classes: Dilantin (phenytoin), thyroid hormones, Coumadin (warfarin).
- Prior authorization with documentation that two (2) generic medications from different manufacturers were tried and did not meet the medical needs of the Enrollee.

A prior authorization request should be submitted using the instructions above.

There may be rare exceptions to this policy. If the brand medication is included or preferred on the formulary when an equivalent generic or interchangeable biologic product is available, the lowest cost share (generic copayment) will apply.

Day supply policy

SFHP standard day supply policy is 30-day supply prescription limit for most brand medications and 90-day supply prescription limit for generic medications with some exceptions. Refills are allowed when 75% of the medication has been used, except for opiate pain medications where refills are allowed when 90% of the medication has been used.

Exceptions to the 30-day supply prescription limit policy for brand medications are as follows:

- Up to a 12-month supply is allowed for contraceptives and contraceptive devices
- Up to 100-day supply is allowed for test strips, lancets, insulin syringes and urine ketone testing strips
- Up to 90-day supply is allowed for select medications used for treatment of chronic conditions. Examples of drug classes covered under this policy include but are not limited to antidiabetic medications including insulin, anticonvulsants, anticoagulants, antidepressants, antihyperlipidemics, antihypertensives, inhaled steroids.

Exceptions to the 90-day supply prescription limit policy for generic medications are as follows:

- Maximum of 30-day supply per fill is allowed for all opiate medications
- Maximum of 14-day supply per fill is allowed for Hepatitis C medications.

Therapeutic interchange policy

Per American College of Clinical Pharmacy (ACCP), therapeutic interchange is defined as the dispensing of a drug that is therapeutically equivalent to but chemically different

from the drug originally prescribed by a physician or other authorized prescriber. SFHP follows ACCP's definition of therapeutic interchange and will only employ therapeutic interchange with prescriber's approval. Criteria for consideration in therapeutic interchange include availability of agents within a therapeutic class, therapeutic equivalence, safety data, and costs.

Estos servicios son gratuitos.

TAGALOG (TAGALOG-FILIPINO) - ATENSIYON: Kung kailangan mo ng tulong sa iyong wika, tumawag sa **1(415) 547-7800** (TTY: **1(415) 547-7830** o **711**). Mayroon ding mga tulong at serbisyo para sa mga taong may kapansanan, tulad ng mga dokumento sa braille at malaking print. Tumawag sa **1(415) 547-7800** (TTY: **1(415) 547-7830** o **711**). Libre ang mga serbisyonang ito.

ภาษาไทย (THAI) - โปรดทราบ: หากคุณต้องการความช่วยเหลือเป็นภาษาของคุณ กรุณาโทรศัพท์ไปที่หมายเลข **1(415) 547-7800** (TTY: **1(415) 547-7830** หรือ **711**) นอกจากนี้ ยังพร้อมให้ความช่วยเหลือและบริการต่าง ๆ สำหรับบุคคลที่มีความพิการ เช่น เอกสารต่าง ๆ ที่เป็นอักษรเบรลล์และเอกสารที่พิมพ์ด้วยตัวอักษรขนาดใหญ่ กรุณาโทรศัพท์ไปที่หมายเลข **1(415) 547-7800** (TTY: **1(415) 547-7830** หรือ **711**) บริการไม่มีค่าใช้จ่ายใด ๆ

УКРАЇНСЬКОЮ (UKRAINIAN) - УВАГА! Якщо вам потрібна допомога вашою рідною мовою, телефонуйте на номер **1(415) 547-7800** (TTY: **1(415) 547-7830** або **711**). Люди з обмеженими можливостями також можуть скористатися допоміжними засобами та послугами, наприклад, отримати документи, надруковані шрифтом Брайля та великим шрифтом. Телефонуйте на номер **1(415) 547-7800** (TTY: **1(415) 547-7830** або **711**). Ці послуги є безкоштовними.

TIẾNG VIỆT (VIETNAMESE) - CHÚ Ý: Nếu quý vị cần trợ giúp bằng ngôn ngữ của mình, vui lòng gọi số **1(415) 547-7800** (TTY: **1(415) 547-7830** hoặc **711**). Chúng tôi cũng hỗ trợ và cung cấp các dịch vụ dành cho người khuyết tật, như tài liệu bằng chữ nổi Braille và chữ khổ lớn (chữ hoa). Vui lòng gọi số **1(415) 547-7800** (TTY: **1(415) 547-7830** hoặc **711**). Những dịch vụ này đều là miễn phí.

NONDISCRIMINATION NOTICE

Discrimination is against the law. San Francisco Health Plan (SFHP) follows Federal civil rights laws. SFHP does not discriminate, exclude people, or treat them differently because of race, color, national origin, ancestry, religion, sex, marital status, gender, gender identity, sexual orientation, age, or disability.

SFHP provides:

- Free aids and services to people with disabilities to help them communicate better, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio ,accessible electronic formats, other formats)
- Free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact SFHP Customer Service between 8:30am and 5:30pm, Monday through Friday, by calling **1(415) 547-7800** or **1(800) 288-5555** (toll-free). Or, if you cannot hear or speak well, please call TTY **1(415) 547-7800** or **1(888) 883-7347** (toll-free).

HOW TO FILE A GRIEVANCE

If you believe that SFHP has failed to provide these services or discriminated in another way on the basis of race, color, national origin, ancestry, religion, sex, marital status, gender, gender identity, sexual orientation, age, or disability, you can file a grievance with SFHP. You can file a grievance by phone, in writing, in person, or electronically:

- By phone: Contact SFHP between 8:30am and 5:30pm, Monday through Friday, by calling **1(415) 547-7800** or **1(800) 288-5555** (toll-free). Or, if you cannot hear or speak well, please call TTY **1(415) 547-7830** or **1(888) 883-7347** (toll-free).
- In writing: Fill out a complaint form or write a letter and send it to:
San Francisco Health Plan
P.O. Box 194247
San Francisco, CA 94119
- In person: Visit your doctor's office or SFHP's Service Center and say you want to file a grievance. SFHP's Service Center is located at 7 Spring Street, San Francisco, CA 94104.
- Electronically: Visit SFHP's website at **sfhp.org**.

OFFICE OF CIVIL RIGHTS

If you believe you have been discriminated against on the basis of race, color, national origin, age, disability, or sex, you can also file a civil rights complaint with the

U.S. Department of Health and Human Services, Office for Civil Rights, by phone, in writing, or electronically:

- By phone: Call **1(800) 368-1019**. If you cannot speak or hear well, please call TTY **1(800) 537-7697**.
- In writing: Fill out a complaint form or send a letter to:
U.S. Department of Health and Human Services
200 Independence Avenue, SW Room 509F, HHH Building
Washington, D.C. 20201
Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
- Electronically: Visit the Office for Civil Rights Complaint Portal at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>.

TIER	DESCRIPTION	
1	Tier1	
2	Tier2	
3	Tier3	
TYPE	DESCRIPTION	
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
CC	Clinical Criteria	Your provider is required to get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, we may not cover this drug.
ST	Step Therapy	In some cases, you may be required to first try certain drugs to treat your medical condition before you move up a “step” to other drug options.
AL	Age Limit	This prescription drug may only be covered if you meet the minimum or maximum age limit.
C	Custom	This drug has unique restrictions.
HCR	Health Care Reform Products	The Affordable Care Act (ACA) requires certain preventive generic products to be covered at zero dollar copay. This does not include plans that are grandfathered.
PA	PA Applies	Your provider is required to get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, we may not cover this drug.
QPD	Quantity Per Day	Quantity Per Day.
B4G	Brand For Generic	Brand products that would bypass the DAW penalty. The strategy prefers brands over generics.

HUMIRA(CF) PEN PSOR-UV-ADOL HS	3	CC PA QPD 0.15 per day
SIMLANDI(CF)	3	CC PA QPD 0.15 per day
SIMLANDI(CF) AUTOINJECTOR	3	CC PA QPD 0.15 per day
VASODILATING AGENTS		
DIRECT VASODILATORS		
<i>hydralazine hcl (10 mg tablet, 25 mg tablet, 50 mg tablet, 100 mg tablet)</i>	1	
<i>minoxidil (2.5 mg tablet, 10 mg tablet)</i>	1	
NITRATES AND NITRITES		
<i>isosorbide dinitrate</i>	1	
<i>isosorbide mononitrate (10 mg tablet, 20 mg tablet, 30 mg tab er 24h, 60 mg tab er 24h, 120 mg tab er 24h)</i>	1	
NITRO-BID	2	
<i>nitroglycerin (0.3 mg tab subl, 0.4 mg tab subl, 0.6 mg tab subl)</i>	1	

PRODUCT DESCRIPTION	TIER	LIMITS & RESTRICTIONS
VASODILATING AGENTS (RESPIRATORY TRACT)		
PHOSPHODIESTERASE-5 INHIBITORS (RESPIR)		
ALYQ	3	CC PA QPD 2.0 per day
<i>sildenafil citrate 20 mg tablet</i>	3	CC PA QPD 12.0 per day
<i>tadalafil 20 mg tablet</i>	3	CC PA QPD 2.0 per day
PROSTACYCLIN & PROSTACYCLIN DERIVATIVES		
VENTAVIS	3	CC PA QPD 9.0 per day
VITAMINS
