AS OF November 2021

SAN FRANCISCO HEALTH PLAN

Medi-Cal Formulary

As of November 2021

San Francisco Health Plan Medi-Cal Formulary

The San Francisco Health Plan (SFHP), with the direction from the Pharmacy and Therapeutics Committee (P&T), has developed a formulary to be used by members, clinicians, and pharmacists. The P&T Committee is composed of the SFHP Chief Medical Officer, the SFHP Pharmacy Director, physicians from various medical specialties and clinics, and community clinical pharmacists. The P&T meets quarterly to review formulary changes based on quality of care considerations and sound pharmacoeconomic principles.

The formulary is a list of drug products designed to reflect the most appropriate, high quality and cost-effective drug therapies. The formulary is updated regularly and is subject to change without notice.

The formulary requires the continuous support of all our providers and pharmacists. Please contact us at **(415) 547-7818 x 7085 option 3** or medpharm@sfhp.org if you have any questions regarding the formulary. The SFHP formulary can be easily accessed online at <http://www.sfhp.org/providers/formulary/sfhp-formulary/>.

Request for Addition or Deletion of a Drug to the Formulary

SFHP providers may request evaluation of drugs for addition to or deletion from the formulary by submitting the [Formulary Modification Request Form](#) available on our website at <https://www.sfhp.org/providers/pharmacy-services/prior-authorization-requests/>.

Request for Non-Preferred Medications

Non-preferred or non-formulary medications may be authorized when there is clinical justification for doing so. Providers can submit a prior authorization (PA) request by:

1. **Fax:** Download a [Prior Authorization Request Form](#) and fax to **(855) 461-2778** for both standard and urgent requests. Urgent requests should be clearly labeled “URGENT” at the top of the prior authorization request form.
2. **Phone:** Pharmacy Benefits Manager (PBM) Magellan at **(800) 424-4331** to submit a verbal request.

The [Prior Authorization Request Form](#) can be accessed from our website at <https://www.sfhp.org/providers/pharmacy-services/prior-authorization-requests/>.

Brand Medication Policy

SFHP has a mandatory generic policy and requires generic substitution when an equivalent AB-rated generic product is available. Dispensing of brand name medications when generic equivalent is available is allowed only in certain cases:

*Here for you*

- Pharmacy bills brand medication as DAW 5 (i.e. billed as a generic product).
- Pharmacy bills brand medication as DAW 8 (i.e. generic formulation is not currently available).
- Pharmacy is dispensing one (1) of the following narrow therapeutic index drugs/classes: Dilantin (phenytoin), thyroid hormones, coumarin type anticoagulants.
- For all other brand name medication requests, prior authorization with documentation that two (2) generic medications from different manufacturers were tried and did not meet the medical needs of the member.

All brand name medication prior authorization requests are reviewed by an SFHP pharmacist or Medical Director. In all other cases, a prior authorization (PA) request should be submitted using the instructions above.

Medi-Cal Formulary Exclusions

The following drugs classes are excluded from the SFHP Medi-Cal formulary and are covered by fee-for-service (FFS) Medi-Cal. TAR may need to be submitted to FFS Medi-Cal for certain medications. For more information, refer to the “Capitated/Noncapitated Drugs” section in the “[MCP: Two-Plan Model](#)” document available at Medi-Cal’s website (www.medi-cal.ca.gov).

- Anti-psychotics
- AIDs/HIV drugs (except didanosine, zidovudine covered on SFHP Medi-Cal formulary)
 - Note: If a medication is carved out, it is carved out regardless of indications. For example, Viread® (tenofovir) and Epivir® (lamivudine) are carved out whether they are used for treatment of HIV or Hepatitis B.
- Alcohol, heroin detoxification and dependency treatment drugs

Medications in the following categories are excluded from the SFHP Medi-Cal formulary:

- Erectile dysfunction drugs
- Fertility medications
- Medications for cosmetic uses (e.g. hydroquinone for hyperpigmentation of the skin)

Day Supply Policy

SFHP standard day supply policy is 30-day supply for most brand medications and 90 day supply for generic medications with some exceptions. Refills are allowed when 75% of the medication has been used, except for opiate pain medications where refills are allowed when 90% of the medication has been used.

Exceptions to the 30-day supply policy for brand medications are as follows:

- Up to 100-day supply is allowed for test strips, lancets, insulin syringes and urine ketone testing strips
- Up to 90-day supply is allowed for select medications used for treatment of chronic conditions. Examples include but are not limited to antidiabetic medications including insulin,

anticonvulsants, anticoagulants, antidepressants, antihyperlipidemics, antihypertensives, inhaled steroids and contraceptives.

Exceptions to the 90-day supply policy for generic medications are as follows:

- 30-day supply only is allowed for all opiate medications except tramadol

Formulary Restrictions

Standard formulary restrictions applicable to SFHP formulary are medication quantity and age limitations. All formulary restrictions are based on FDA approved indications, standards of practice and safety and abuse potential considerations.

Step Therapy (ST)

Step Therapy (ST) medications will process at point of sale at the pharmacy if there are paid prescription claims for preferred medications. If there are no paid prescription claims, a prior authorization (PA) request must be submitted for consideration of coverage. Visit our website at <http://www.sfhp.org/providers/formulary/sfhp-formulary/> for detailed information on all active [step therapy rules](#).

Therapeutic Interchange Policy

Per American College of Clinical Pharmacy (ACCP), therapeutic interchange is defined as the dispensing of a drug that is therapeutically equivalent to but chemically different from the drug originally prescribed by a physician or other authorized prescriber. SFHP follows ACCP's definition of therapeutic interchange and will only employ therapeutic interchange with prescriber's approval. Criteria for consideration in therapeutic interchange include availability of agents within a therapeutic class, therapeutic equivalence, safety data, and costs.

Diabetic Supplies

The following diabetic supplies are covered on SFHP formulary as a pharmacy benefit:

- Glucometers: ACCU-CHEK Guide, 1 glucometer per 365 days
- Test strips: ACCU-CHEK Guide, ACCU-CHEK SmartView (for Nano) and ACCU-CHEK Aviva Plus test strips with the following quantity limits:
 - 400 per 100 days for all members
 - 800 per 100 days for members with gestational diabetes
- Lancets: ACCU-CHEK FastClix, Multiclix, SoftClix lancets, 100-day supply

Respiratory Supplies

The following respiratory supplies are covered as a pharmacy benefit for a quantity of 2 per 365 days:

- Inhalers and inhaler assist devices
- Nebulizers
- Peak flow meters

Home Blood Pressure Monitors

Omron Series 3, 5, 7, and 10 home blood pressure monitors are covered as a pharmacy benefit for a quantity of 1 monitor per member every 5 years.

Vaccines

Certain vaccines are covered as a pharmacy benefit for Medi-Cal members over the age of 18. Please visit SFHP website at <http://www.sfhp.org/providers/formulary/sfhp-formulary/> for a [detailed list of covered vaccines](#).

Children 18 years of age or younger are eligible for vaccinations through the California Vaccines for Children (VFC) Program. Please contact VFC at 1-877-243-8832 for more information.

Formulary Document Details

The SFHP formulary document is listed by drug class and includes the following information: drug name, dosage form, drug tier, quantity and age limit and prior authorization or step therapy requirements. Brand products are listed in all uppercase letters and generic products are listed in all lowercase letters. Tier 1 drugs are formulary preferred and will pay at point of sale if quantity and age limits are met (see “Formulary Restrictions” above). Tier 2 drugs require a Prior Authorization (see “Request for Non-Preferred Medications” above) or Step Therapy (see “Step Therapy (ST)” above).

**Some medications may be listed as both Tier 1 and Tier 2 due to a particular strength being formulary and another strength of the same medication requiring a prior authorization.

If you are hearing impaired, please call the TDD/TYY line at **1(415) 547-7830**, toll-free at **1(888) 883-7347** or through the California Relay Service at 711. You may request this document in alternative formats like Braille, large size print, and audio. To request other formats, or for help with reading this document and other SFHP materials, please call Customer Service at **1(415) 547-7800** or toll-free at **1(800) 288-5555**.
